

# Medicaid Information Bulletin

February 2003

---

## 03 - 04 Copayment/Co-insurance Policy

Copayments and co-insurances have been instituted recently in traditional Medicaid, non-traditional Medicaid and the Primary Care Network programs. The provider should collect the copayment or co-insurance amount from the Medicaid client for each visit, limited to one per day. The copayments and co-insurances are deducted from the Medicaid reimbursement to the provider. The provider can deny service for any client who refuses to make the copayment when the client's current Medicaid eligibility card indicates copayment required. □
